

Filling valve Bottom installation ITS COMPACT ATTACCO BASSO

Application Area

- In a wall and external cisterns

Characteristics

- Universal installation
- The most compact of the category Ø 53 mm
- Counter pressure filling valve
- Ultra silent
- Immediate shut off of the flow at the desired level using inlet water pressure
- Pressure stable, easy water level adjustment
- Corrosion resistant materials (POM)
- Easy and fast installation
- Anti syphon system to avoid pollution of the main line
- From above easy telescopic set up
- Easy access strainer for dirt

Technical data

	Data	Dimensions
Min working pressure	0,2 bar	H = 208÷335
Max working pressure	16,0 bar	Ø = 53 mm
Connection	3/8"	
Water level	120÷247 mm	
Height regulation	208÷335 mm	

Part #: 2.01/TO
